TrendWatching
Understand,
categorise and
explain trends and
how to act on it.

Independent Graphic
Designer -
Self employed
Designing
logo's and visuals for
start ups and
personal projects.

Intrests

Relocated to
Bangkok for the past
2 year to focus on
personal growth,
reflection and
mindfulness
practices.

Alongside this, I
discovered a passion
for running. The
mental benefits, the
social aspect and the
competitiveness
became my daily
motivators. I became
part of the running
scene in Bangkok,
which landed me
modelling jobs and
collaborations with
local running brands.

More recently I have
fallen back in love
with designing and
found a strong intrest
in how to combine
my design skills with
Ai tools.
